

The Australia-Cambodia Cooperation for Equitable Sustainable Services - Phase 2 program (ACCESS 2) marks a continuation of Australia's flagship bilateral investment in gender equality, disability, rehabilitation, and social inclusion in Cambodia. Over five years (2023 – 2028), Australia will commit AUD 30 million to improve the quality and coordination of service delivery for survivors of gender-based violence (GBV) and persons with disabilities in Cambodia.

ACCESS 2 will continue working with national and sub-national level government and civil society including non-government organisations (NGOs), Organisations of Persons with Disabilities (OPDs), and women's and indigenous people's organisations to assist the Royal Government of Cambodia (RGC) to effectively implement the National Action Plan to Prevent Violence Against Women (NAPVAW) and the National Disability Strategic Plan (NDSP) to ensure that persons with disabilities and survivors of GBV have better access to the services they need.

Gender-Based Violence

Disability Inclusion

Rehabilitation

Indigenous Development

ACCESS 2's goal is: Persons with disabilities and survivors of GBV benefit from access to quality and coordinated services as outlined under the RGC's NDSP and NAPVAW.

There are two end-of-investment-outcomes (EOIOs) that contribute to this goal:

EOIO 1:

By 2028, select service providers deliver higher quality GBV and disability services to increasing numbers of people in the target provinces.

EOIO 2:

By 2028, select national and sub-national policy and planning processes respond to the priorities of survivors of GBV and persons with disabilities.

Geographic Scope

ACCESS 2 focuses on four target provinces, as well as Phnom Penh autonomous municipality.

Under the ACCESS 2 program Theory of Change, quality services are defined as being:

Accessible & Inclusive

Adaptive and Responsive

Available and Consistent

Coordinated

Evidence Informed

Sustainable

Safe
