ABOUT THE PROGRAM

The Australia–Cambodia Cooperation for Equitable Sustainable Services – Phase 2 (ACCESS 2) program is Australia’s flagship bilateral investment in gender equality, disability, rehabilitation and social inclusion in Cambodia. Australia is investing AUD 30 million (2023–2028) to improve the quality, coordination and inclusiveness of services for survivors of gender-based violence (GBV) and persons with disabilities.

In partnership with the Royal Government of Cambodia, ACCESS 2 supports implementation of the National Action Plan to Prevent Violence Against Women and the National Disability Strategic Plan. Building on national reforms from the first phase (2018–2023), ACCESS 2 now applies these reforms at the sub-national level in four target provinces.

The program strengthens frontline health, legal, social and rehabilitation services, and supports GBV survivors, persons with disabilities, Indigenous communities and their representative organisations to inform policy and planning affecting them.

PROGRAM GOAL: Persons with disabilities and survivors of gender-based violence benefit from access to quality and coordinated services.
