

## International Committee of the Red Cross (ICRC)

### REHABILITATION WORKSTREAM

Australia–Cambodia Cooperation for Equitable Sustainable Services - Phase 2

## ICRC'S ACCESS 2 WORK

ACCESS 2's contribution to physical rehabilitation services through ICRC concluded in June 2026. The grant supported Cambodia's two largest physical rehabilitation centres (PRCs) in Battambang and Kampong Speu, which deliver around half of the country's annual rehabilitation services and serve as a regional hub for prosthetics and orthotics education. Funding extended to community outreach in neighbouring provinces, prosthesis repairs, new client identification and awareness raising, alongside social inclusion activities such as wheelchair basketball and referrals to education, healthcare and vocational training. ICRC's technical leadership continues as rehabilitation services are increasingly integrated into the Ministry of Health.

## KEY OUTCOMES

-  Maintain service provision at Battambang and Kampong Speu PRCs, including outreach services
-  Strengthen the rehabilitation workforce through physiotherapy and prosthetic and orthotic scholarships.
-  Empower service users through micro-economic programs, training, employment, education and sport.
-  Promote national physiotherapy awareness and standards

## KEY DETAILS

**Duration**  
**Oct 2023 – Jun 2026**

**Locations**  
**Battambang, Kampong  
Speu**

**Direct Beneficiaries**  
**23,500+**

## Project Spotlight

### Physical Rehabilitation Centre (PRC) in Battambang

Cambodia's largest physical rehabilitation centre in Battambang serves five provinces with physiotherapy, prosthetics & orthotics (P&O), wheelchairs and outreach to remote communities. In 2025, Battambang PRC served 9,046 service users.

## KEY ACHIEVEMENTS TO DATE (to June 2026)

**23,537**

People served, including  
through outreach

**5,298**

Prostheses and orthoses  
devices fitted

**83,300**

Physiotherapy treatment  
sessions

- Community outreach increased access to services, with outreach clients accounting for 48% of all clients served.
- Joint monitoring visits to hospitals and rehabilitation centres in eight provinces, promoting implementation of PT standards.
- More than 877 wheelchairs and 2,648 walking aids were distributed.
- Scholarships supported ten physiotherapy and two prosthetics students, and the ICRC supported women's wheelchair basketball team qualified for the 2026 Asian Para Games.

## WHO BENEFITS

### Direct

People with functional limitations, including persons with disabilities, PT and P&O students.

### Indirect

Families, carers and communities of persons with disabilities.

“

I'm very happy with my prosthetic leg. I can walk again and return to community without facing discrimination.

**Ms Sreuy Kamsot, service user, Battambang PRC**
